Dear Dr. Henney, I am writing to express my concert over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support of all the points in docket #00P-121T\CP1 All &E foods should be labeled so I am informed and have a choice. Commissioner Jane Henney Docker No.009-12114CPB P1:50 GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.
